Welcome to Headington Oxford Summer School

With its fantastic facilities and only a 20-minute walk to Oxford's city centre, Headington Oxford offers the perfect setting for an exciting summer school experience. Students from all over the world have the chance to improve their English, take part in fun and varied activities and day trips, and make friendships that will last a lifetime.

Academic Programme

Students are taught in an environment where they can communicate freely and develop language skills through a dynamic and engaging syllabus. There are a maximum of 15 students per class. Students can choose from:

General English

For students from a beginner to advanced level, General English enables students to develop their vocabulary and grammar, alongside reading, writing, listening and speaking skills in English. A focus on communication and interaction builds students' knowledge and confidence to use English.

Summer Study

For students with an upper intermediate or advanced level of English, this creative and interactive course focuses on improving English language skills through the study of engaging and thought-provoking subjects, including History, Science, Literature and Creative Writing.

Both courses aim to improve both students' language skills and transferable skills that will help them succeed in their future academic and professional lives. All students will take part in a Time to Shine research and presentation project, to develop communication, teamwork, creativity and cross-cultural skills.

"Classes are the best, we had so much fun and at the same time we were always learning."
